9. GUIDANCE NOTES

Section 1: Applicant Details – to be completed by the applicant.

Section 2: Purpose of the Skill Test / Proficiency Check – to be completed by the applicant. **Note:** if a test/check is to be completed for both SP and MP privileges, a separate form must be completed for each test/check.
A skill test may also serve as a revalidation or renewal Proficiency Check for the applicant's IR.

Section 3: Application & Declaration - to be completed by the applicant.

- When renewing a class or type rating based on holding a valid ICAO Annex I class or type rating the same as that declared in Section 2 of the form, the examiner shall verify that the class or type rating is valid and that the applicant is entitled to exercise the privileges of that rating. The applicant shall attach a copy of the ICAO Annex I compliant license and evidence that the class or type rating is valid.

Note: it may be necessary for the authority to verify the license and the class or type rating before accepting the application. In such cases the applicant will be notified and must submit a completed PEL-FCL 120 form.

Section 4: Course Completion Certificate – to be completed, as applicable, by the ATO Head of Training or authorized signatory for initial issue or renewal of a type rating. An ATO Course Completion Certificate will be accepted in lieu of this section provided it contains the same information and Section 4(A) and (F) have been completed.

Renewal of a type rating:

To be completed the ATO, in accordance with AMC1 FCL.740(b)(e), if it is determined no refresher training is required attach a certificate or other documental evidence containing a respective statement including sufficient reasoning to support that determination.
